Hologic Receives FDA Clearance to Use Discovery DXA System for Detecting Cardiovascular Disease

Hologic, Inc., a leading provider of state-of-the-art diagnostic and digital imaging systems, has received FDA clearance to use information from the Hologic Discovery bone densitometer as a predictor of coronary heart disease, stroke, and other forms of cardiovascular disease. The new indication, visualization of Abdominal Aortic Calcification (AAC), targets the number one cause of morbidity and mortality in older women and men—heart disease and stroke.

Safer, More Effective and \$20,000 Less Than a Laser

We are offering the most advanced professional skin treatment & hair removal product available today. Our system delivers a changeable sequence of very rapid short pulses of light energy. Unlike other pulsed light systems, it can change the number of pulses, their length or duration, and most importantly the space of delay between pulses. Properly used, our unit takes regular pulsed light to new levels of effectiveness and safety. Please call 877-646-3300 for an in office demo. **Medical Device Depot.**
