

Hill Laboratories MAT TABLE

Electric Elevation HA90M

HA90M FEATURES

Hill Laboratories has designed the HA90M to be sturdy, dependable, affordable—and the most attractive mat table on the market! All of its working mechanisms are safely enclosed within an acrylic, thermo-plastic base which is durable and very easy-to-clean. The base features a welded steel construction and a baked-on, powder-coat finish. Vinyl bumper guards protect the edges of the table-top while recessed support legs permit obstruction-free movement around the table. The Hill Adjustable Mat Table adjusts smoothly and quietly from 21" to 34" with the power of an electric actuator. Design the HA90M with your choice of 20 attractive Blockade® upholstery colors.
